Ārlietu ministrija

DEVELOPMENT OF THE MEDICAL EDUCATIONAL PROCESS AND CAPACITY BUILDING

Development Cooperation Projects priority is support developing countries by providing technical assistance, funding, or expertise in areas such as education, health, good governance

Priorities of this cooperation project at program level :

- development of public administration and capacity building;
- the development of civil society and the promotion of democratic participation;
- strengthening the resilience of society to disinformation,
- digitalisation.

Partners:

- Tbilisi State University Medical Faculty's
- Pauls Stradiņš clinical university hospital
- The Association of Latvia young doctors

DEVELOPMENT OF THE MEDICAL EDUCATIONAL PROCESS AND CAPACITY BUILDING

The aim of the project is to strengthen the capacity of Georgia's public administration, which will include Ivane Javakhishvili in Tbilisi State University Medical Faculty's activities to increase:

**the qualifications of administrative and
academic staff**

**exchange of experience and knowledge
transfer (including digitalisation)**

**and develop civil society by promoting the
involvement of young doctors in the non-
governmental sector**

DEVELOPMENT OF THE MEDICAL EDUCATIONAL PROCESS AND CAPACITY BUILDING

Project measurable results:

Experience exchange visits

2 visits to Latvia

3 visits to Georgia

Conducted training courses and prepared training materials for 6 courses:

- Digitalisation of laboratory processes;
- Team-building practices for academic staff and medical staff;
- Daily communication in the organisation, crisis communication;
- Integrating digital solutions into the content and process of study courses;
- EU-funded projects – opportunities and challenges;
- Training teams for capacity building.

Trained 14 Georgia teachers as lecturers who can provide training after the project has been carried out in Georgia - 5 courses:

- Digitisation of laboratory processes;
- Team-building practices for academic staff and medical staff;
- Daily communication in the organisation, crisis communication;
- Integrating digital solutions into the content and process of study courses;
- EU-funded projects – opportunities and challenges

DEVELOPMENT OF THE MEDICAL EDUCATIONAL PROCESS AND CAPACITY BUILDING

Experience Exchange

1

Pathology Institute

Discussions on Latvian legislation, EU experience, and nuances. Agreement on joint collaboration projects.

2

Latvian University

Experience exchange visit to the Latvian University.

3

RSU Simulation Center

Experience exchange visit to the RSU Simulation Center. The Georgian partners were very interested in this visit, as they want to implement a similar center at TVU.

4

LU P. Stradiņš Medical College

Experience exchange visit to LU P. Stradiņš Medical College. The Georgian partners learned about how Latvia trains healthcare support personnel, such as masseurs, cosmetologists, podiatrists, and laboratory assistants.

DEVELOPMENT OF THE MEDICAL EDUCATIONAL PROCESS AND CAPACITY BUILDING

Long-Term Impact

Capacity Building

The project directly impacts the capacity of our Georgian partner by providing new experience and knowledge.

Training Staff

The project also trains staff to deliver relevant lectures.

Georgian Society

The project impacts Georgian society by sharing Latvian experience and knowledge on EU participation and strengthening TVU's administrative capacity.

Future Generations

The project helps the Georgian partners better prepare the next generation of medical professionals.
